

# GET THE INSIDE SCOOP!

Because quality and compliance count,  
there's no substitute for  
**Banner Medical's Immersion Ultrasonic testing.**

Banner Medical is pleased to announce that we have expanded our extensive value-added service capability with the addition of in-house Immersion Ultrasonic Testing. Banner can help Medical OEM's and Contract Manufacturers comply with the latest ASTM F136 & ASTM F138 requirements, and can provide full material traceability and testing documentation upon request.

## **Banner Medical Ultrasonic Testing Advantages:**

- Tests and identifies inherent internal and surface anomalies
- Titanium, Cobalt Chrome, Stainless, and other exotic metals are readily available
- Material diameters from .125" through 4.00" O.D.
- Capable of testing round, flat, and shaped bar
- Reduced lead time
- Reduced scrap rate
- The latest in Ultrasonic Testing technology

**MULTI-AXIS SCANNING HEAD  
ENCOMPASSES 5 TRANSDUCERS**

Banner utilizes the latest technology to ensure their customers receive the highest quality products available.

**PRE-TESTED MATERIAL AVAILABLE  
FOR RAPID DELIVERY**
